

## 3097 Precleaner 3000

<b>Description</b>	The abrasive precleaner activates the glass surface for an optimal result of the sealing. Significantly increases the durability of nano-seals. Even the most stubborn dirt is released by abrasive components.
<b>Advantages</b>	For pre-cleaning before sealing - cleans glass and ceramic surfaces
<b>Application fields</b>	Auto repair shops
<b>Application</b>	1. Shake well before use. 2. Use a suitable cloth to spread evenly in a circular motion and very sparingly. 3. Polish with a clean, dry cloth. If the cleaner dries, it can be diluted with water again. Do not mix with chlorine-containing cleaners, as this can produce vapors that are harmful to health. Do not use on acid sensitive materials such as marble and other natural stones.

### Technical data

<b>Chemical base</b>	Abrasive
<b>Colour</b>	Light beige
<b>Density</b>	1,30 g/ml
<b>Substrate</b>	Glass, stone, ceramics
<b>Consumption</b>	25 ml / m <sup>2</sup>
<b>Solvent (%)</b>	< 5
<b>Propellant</b>	-
<b>Application temperature</b>	5°C - 25°C
<b>Storage temperature</b>	5°C - 25°C
<b>Shelf life</b>	24 months
<b>Packaging</b>	35 ml / 250 ml PE bottle
<b>Product variants</b>	A309703501 35 ml A309725001 250 ml
