## Regulation (EC) No 1272/2008

Skin Irrit. 2; H315 Eye Dam. 1; H318 Skin Sens. 1; H317 STOT SE 3; H335 Aquatic Chronic 3; H412

Full text of hazard statements: see SECTION 16.

#### 2.2. Label elements

#### Regulation (EC) No 1272/2008

#### Hazard components for labelling

Methacrylic acid, monoester with propane-1,2-diol acrylic acid; prop-2-enoic acid alpha,alpha-dimethylbenzyl hydroperoxide; cumene hydroperoxide Ethyl phenyl(2,4,6-trimethylbenzoyl)phosphinate phenyl bis(2,4,6-trimethylbenzoyl)phosphine oxide Signal word: Danger

#### Kisling - 2453

Revision date: 24.01.2024

Product code: 2453

Page 2 of 16

**Pictograms:** 

#### Hazard statements

| H315 | Causes skin irritation.                            |
|------|--|
| H317 | May cause an allergic skin reaction.               |
| H318 | Causes serious eye damage.                         |
| H335 | May cause respiratory irritation.                  |
| H412 | Harmful to aquatic life with long lasting effects. |

#### Precautionary statements

| P261                  | Avoid breathing dust/fume/gas/mist/vapours/spray.                                      |
|-----------------------|--|
| P280                  | Wear protective gloves and eye/face protection.  |
| P305+P351+P338        | IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if |
|                       | present and easy to do. Continue rinsing.  |
| P310                  | Immediately call a POISON CENTER/doctor.   |
| P333+P313             | If skin irritation or rash occurs: Get medical advice/attention.                       |
| P362+P364             | Take off contaminated clothing and wash it before reuse.                               |
| alling of gools and a | have the contents do not even ad 405 ml  |

#### Labelling of packages where the contents do not exceed 125 ml

### **SECTION 4: First aid measures**

#### 4.1. Description of first aid measures

#### Kisling - 2453

Revision date: 24.01.2024

Product code: 2453

Page 4 of 16

### General information

Take off immediately all contaminated clothing.

#### After inhalation

Provide fresh air. When in doubt or if symptoms are observed, get medical advice.

#### After contact with skin

After contact with skin, wash immediately with plenty of water and soap. In case of skin irritation, consult a physician.

#### After contact with eyes

Rinse immediately carefully and thoroughly with eye-bath or water. Remove contact lenses, if present and easy to do. Continue rinsing.

#### After ingestion

Rinse mouth immediately and drink plenty of water. Do NOT induce vomiting. Get immediate medical advice/attention.

#### 4.2. Most important symptoms and effects, both acute and delayed

No further relevant information available.

#### 4.3. Indication of any immediate medical attention and special treatment needed

No further relevant information available.

#### **SECTION 5: Firefighting measures**

#### 5.1. Extinguishing media

#### Suitable extinguishing media

Carbon dioxide (CO2), Dry extinguishing powder, Foam.

#### Unsuitable extinguishing media

Full water jet.

#### 5.2. Special hazards arising from the substance or mixture

In case of fire and/or explosion do not breathe fumes.

#### 5.3. Advice for firefighters

Wear a self-contained breathing apparatus and chemical protective clothing.

#### Additional information

Collect contaminated fire extinguishing water separately. Do not allow entering drains or surface water.

#### **SECTION 6: Accidental release measures**

#### 6.1. Personal precautions, protective equipment and emergency procedures

#### General advice

Remove all sources of ignition.

#### 6.2. Environmental precautions

Do not allow to enter into surface water or drains.

#### 6.3. Methods and material for containment and cleaning up

#### For cleaning up

Absorb with liquid-binding material (sand, diatomaceous earth, acid- or universal binding agents). Treat the recovered material as prescribed in the section on waste disposal.

#### 6.4. Reference to other sections

Safe handling: see section 7 Personal protection equipment: see section 8 Disposal: see section 13

#### **SECTION 7: Handling and storage**

#### 7.1. Precautions for safe handling

#### Kisling - 2453

Revision date: 24.01.2024

Product code: 2453

Page 5 of 16

#### Advice on safe handling

Use only in well-ventilated areas. Keep away from sources of ignition - No smoking.

#### Advice on protection against fire and explosion

Take precautionary measures against static discharges.

#### Advice on general occupational hygiene

Remove contaminated, saturated clothing immediately. Draw up and observe skin protection programme. Wash hands and face before breaks and after work and take a shower if necessary. When using do not eat, drink, smoke, sniff.

#### Further information on handling

Keep only in the original container in a cool, well-ventilated place.

#### 7.2. Conditions for safe storage, including any incompatibilities

#### Requirements for storage rooms and vessels

Keep container tightly closed and in a well-ventilated place.

#### Hints on joint storage

none

#### Further information on storage conditions

Store in a cool dry place. Protect from direct sunlight.

#### 7.3. Specific end use(s)

No further relevant information available.

#### **SECTION 8: Exposure controls/personal protection**

#### 8.1. Control parameters

#### Occupational exposure limit values

| CAS No  | Name of agent                   | ppm | mg/m³ | fib/cm³ | Category     | Origin |

#### 8.2. Exposure controls

### Appropriate engineering controls

If handled uncovered, arrangements with local exhaust ventilation have to be used. Do not breathe gas/fumes/vapour/spray.

#### Individual protection measures, such as personal protective equipment

according to Regulation (EC) No 1907/2006

#### Kisling - 2453

Revision date: 24.01.2024

Product code: 2453

Page 8 of 16

#### Eye/face protection

Suitable eye protection: goggles.

#### Hand protection

When handling with chemical substances, protective gloves must be worn with the CE-label including the four control digits. The quality of the protective gloves resistant to chemicals must be chosen as a function of the specific working place concentration and quantity of hazardous substances. For special purposes, it is recommended to check the resistance to chemicals of the protective gloves mentioned above together with the supplier of these gloves. Tested protective gloves must be worn.

For special purposes, it is recommended to check the resistance to chemicals of the protective gloves mentioned above together with the supplier of these gloves.

#### Skin protection

Wear suitable protective clothing. The type of personal protection equipment has to be chosen based on the concentration and amount of the dangerous substance at the workplace.

#### **Respiratory protection**

In case of inadequate ventilation wear respiratory protection. If technical exhaust or ventilation measures are not possible or insufficient, respiratory protection must be worn.

#### **SECTION 9: Physical and chemical properties**

#### 9.1. Information on basic physical and chemical properties

| Physical state:                            | Liquid                   |                       |
|--|--------------------------|-----------------------|
| Colour:                                    | light yellow transparent |                       |
| Odour:                                     | characteristic           |                       |
| Odour threshold:                           | not determined           |                       |
| Melting point/freezing point:              |                          | not determined        |
| Boiling point or initial boiling point and |                          | >100 °C               |
| boiling range:                             |                          |                       |
| Flammability:                              |                          | not applicable        |
| Lower explosion limits:                    |                          | not determined        |
| Upper explosion limits:                    |                          | not determined        |
| Flash point:                               |                          | >100 °C               |
| Auto-ignition temperature:                 |                          | not determined        |
| Decomposition temperature:                 |                          | not determined        |
| pH-Value:                                  |                          | not determined        |
| Viscosity / kinematic:                     |                          | not determined        |
| Water solubility:                          |                          | practically insoluble |
| Solubility in other solvents               |                          |                       |
| No data available                          |                          |                       |
| Partition coefficient n-octanol/water:     |                          | not determined        |
| Vapour pressure:                           |                          | not determined        |
| Density (at 20 °C):                        |                          | 1,1 g/cm³             |

## 9.

#### Information with regard to physical hazard classes Explosive properties not explosive. Oxidizing properties

not determined

#### Other safety characteristics

#### Kisling - 2453

Revision date: 24.01.2024

Product code: 2453

450 mPa⋅s

Page 9 of 16

Viscosity / dynamic: (at 25 °C)

#### SECTION 10: Stability and reactivity

#### 10.1. Reactivity

No further relevant information available.

#### 10.2. Chemical stability

The product is stable under storage at normal ambient temperatures.

#### 10.3. Possibility of hazardous reactions

No known hazardous reactions.

#### 10.4. Conditions to avoid

The product is chemically stable under recommended conditions of storage, use and temperature.

#### 10.5. Incompatible materials

No further relevant information available.

#### 10.6. Hazardous decomposition products

No further relevant information available.

#### **SECTION 11: Toxicological information**

#### 11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008

#### Toxicocinetics, metabolism and distribution

#### No data available

#### Acute toxicity

Based on available data, the classification criteria are not met.

#### **ATEmix calculated**

ATE (oral) 9467 mg/kg; ATE (dermal) 20543 mg/kg; ATE (inhalation vapour) 113.4 mg/l; ATE (inhalation dust/mist) 17.42 mg/l

#### Irritation and corrosivity

Causes skin irritation.

Causes serious eye damage.

#### Sensitising effects

May cause an allergic skin reaction. (Methacrylic acid, monoester with propane-1,2-diol; Ethyl phenyl(2,4,6-trimethylbenzoyl)phosphinate; phenyl bis(2,4,6-trimethylbenzoyl)phosphine oxide)

#### Carcinogenic/mutagenic/toxic effects for reproduction

Based on available data, the classification criteria are not met.

#### STOT-single exposure

May cause respiratory irritation. (acrylic acid; prop-2-enoic acid; alpha,alpha-dimethylbenzyl hydroperoxide; cumene hydroperoxide)

#### STOT-repeated exposure

Based on available data, the classification criteria are not met.

#### Aspiration hazard

Based on available data, the classification criteria are not met.

#### Specific effects in experiment on an animal

No data available

#### Additional information on tests No data available

## Practical experience

May be harmful if swallowed, in contact with skin or if inhaled.

#### 11.2. Information on other hazards

Endocrine disrupting properties No data available

#### Further information

The mixture is classified as hazardous according to regulation (EC) No 1272/2008 [CLP].

#### **SECTION 12: Ecological information**

#### 12.1. Toxicity

Harmful to aquatic life with long lasting effects.

#### 12.2. Persistence and degradability

No data available

#### 12.3. Bioaccumulative potential

No data available

according to Regulation (EC) No 1907/2006

#### Kisling - 2453

Revision date: 24.01.2024

Product code: 2453

Page 13 of 16

#### Partition coefficient n-octanol/water

| CAS No      | Chemical name                                     | Log Pow |
|-------------|---|---------|
| 27813-02-1  | Methacrylic acid, monoester with propane-1,2-diol | 0,97    |
| 79-10-7     | acrylic acid; prop-2-enoic acid                   | 0,46    |
| 84434-11-7  | Ethyl phenyl(2,4,6-trimethylbenzoyl)phosphinate   | 2.91    |
| 162881-26-7 | phenyl bis(2,4,6-trimethylbenzoyl)phosphine oxide | 5.8     |

#### BCF

| CAS No      | Chemical name  | BCF   | Species         | Source               |
|-------------|--|-------|-----------------|----------------------|
| 79-10-7     | acrylic acid; prop-2-enoic acid                                    | 3,162 |                 | Unpublished calculat |
| 162881-26-7 | 62881-26-7 phenyl<br>bis(2,4,6-trimethylbenzoyl)phosphine<br>oxide |       | Cyprinus carpio | Study report (1997)  |

#### 12.4. Mobility in soil

No further relevant information available.

#### 12.5. Results of PBT and vPvB assessment

The substances in the mixture do not meet the PBT/vPvB criteria according to REACH, annex XIII.

#### 12.6. Endocrine disrupting properties

This product does not contain a substance that has endocrine disrupting properties with respect to non-target organisms as no components meets the criteria.

#### 12.7. Other adverse effects

No data available

#### **SECTION 13: Disposal considerations**

#### 13.1. Waste treatment methods

#### **Disposal recommendations**

Do not allow to enter into surface water or drains. Dispose of waste according to applicable legislation.

#### List of Wastes Code - residues/unused products

080409 WASTES FROM THE MANUFACTURE, FORMULATION, SUPPLY AND USE (MFSU) OF COATINGS (PAINTS, VARNISHES AND VITREOUS ENAMELS), ADHESIVES, SEALANTS AND PRINTING INKS; wastes from MFSU of adhesives and sealants (including waterproofing products); waste adhesives and sealants containing organic solvents or other hazardous substances; hazardous waste

#### List of Wastes Code - used product

080409 WASTES FROM THE MANUFACTURE, FORMULATION, SUPPLY AND USE (MFSU) OF COATINGS (PAINTS, VARNISHES AND VITREOUS ENAMELS), ADHESIVES, SEALANTS AND PRINTING INKS; wastes from MFSU of adhesives and sealants (including waterproofing products); waste adhesives and sealants containing organic solvents or other hazardous substances; hazardous waste

#### List of Wastes Code - contaminated packaging

080409 WASTES FROM THE MANUFACTURE, FORMULATION, SUPPLY AND USE (MFSU) OF COATINGS (PAINTS, VARNISHES AND VITREOUS ENAMELS), ADHESIVES, SEALANTS AND PRINTING INKS; wastes from MFSU of adhesives and sealants (including waterproofing products); waste adhesives and sealants containing organic solvents or other hazardous substances; hazardous waste

#### Contaminated packaging

Non-contaminated packages may be recycled. Handle contaminated packages in the same way as the substance itself.

#### **SECTION 14: Transport information**

#### **Further Information**

The information is based on the present level of our knowledge. It does not, however, give assurance of product properties and establishes no contract legal rights. The receiver of our product is singularly responsible for adhering to existing laws and regulations. The above information describes exclusively the safety requirements of the product and is based on our present-day knowledge. The information is intended to give you advice about the safe handling of the product named in this safety data sheet, for storage, processing, transport and disposal. The information cannot be transferred to other products. In the case of mixing the product with other products or in the case of processing, the information on this safety data sheet is not necessarily valid for the new made-up material.
